

GANTLA SAI MANIKANTA TEJA

gg5360@srmist.edu.in | +91 86882 69960 | Chennai, Tamil Nadu

Professional Summary

ECE undergraduate (CGPA: 8.98/10) with experience in Python, machine learning, embedded systems, and real-time AI. Seeking the **Nava Summer Internship 2026 — AI Infrastructure (GPUaaS & Inference Systems)** to contribute to Kubernetes-based GPU orchestration, distributed systems, and large-scale model serving pipelines.

Education

SRM Institute of Science & Technology, Ramapuram

B.Tech, Electronics and Communication Engineering

2023 – 2027

CGPA: 8.98 / 10

Technical Skills

Languages: Python, C, C++, JavaScript

ML / AI: scikit-learn, Supervised & Unsupervised Learning, Data Preprocessing, Feature Engineering, Model Evaluation

Systems: Embedded Systems, Microcontroller Programming (C), IoT, Real-Time Control, Verilog HDL

Web & Tools: React, HTML5, CSS3, GSAP, Git, Vercel, Kotlin (Android)

Databases: MongoDB (Certified), MySQL

Experience

Prodigy InfoTech — Machine Learning Intern

Apr 2025

Python, scikit-learn, Supervised & Unsupervised Learning

Remote

- Developed and deployed ML models for real-world applications using Python and scikit-learn.
- Built end-to-end preprocessing pipelines with feature engineering and model evaluation techniques.
- Applied supervised and unsupervised algorithms to solve classification and clustering problems.

Brainwave Matrix Solutions — Web Development Intern

Mar 2025

HTML5, CSS3, JavaScript, Web Development

Remote

- Completed a 1-month web development internship, building and deploying functional web interfaces.
- Received outstanding remarks for contributions to front-end development tasks and project delivery.

AICTE & Edunet Foundation — Frontend Developer Intern

Aug – Sep 2025

HTML5, CSS3, Responsive UI

On-site

- Built responsive, accessible web interfaces and debugged cross-browser issues over a 6-week program.

Projects

FRIDAY — AI Voice Assistant | *Python, NLP, Real-Time Inference*

Sep 2024 – Nov 2026

- Built a real-time AI voice assistant with a low-latency pipeline for web search, YouTube, and live news — directly relevant to inference system design.
- Engineered voice command parsing and real-time decision loop demonstrating systems-level Python for human-AI interaction.

Smart Irrigation System — IoT & Embedded | *C, MCU, IoT, Real-Time Control*

Aug – Nov 2025

- Programmed MCUs in C for real-time sensor acquisition and actuator control — skills transferable to GPU hardware orchestration.
- Designed resource optimization algorithms using threshold logic to prevent over-watering efficiently.

CareerVerse — Full-Stack Platform | *React, Python, Tailwind CSS, Vercel*

Sep – Oct 2025

- Deployed an interactive 3D career guidance platform with animated roadmaps and a structured daily learning planner.

Certifications & Achievements

- MongoDB Basics for Students — MongoDB University (Jul 2025)
- Verilog HDL Fundamentals for Digital Design & Verification — Udemy (Sep 2024)
- Python for Data Science & OOP with C++ — Datapro
- Smart India Hackathon (SIH 2025) Participant | TECHNOTHON Winner — St. Joseph's College (Oct 2025)
